SUMMARY

Supply chain and operations professional with defense aerospace manufacturing experience. At Pratt & Whitney, managed the supply chain for F100 engine parts (F-15 and F-16), covering purchasing, SAP delivery scheduling, warehousing, reorder points and safety stock. Since 2018, founder of Statadventure, advising U.S. manufacturers on inventory, S&OP, supplier diversification, tariff exposure and logistics visibility, and building forecasting and inventory tools in Python and SQL. MBA in Finance and Operations; B.S. in Supply Chain Management & Finance. U.S. citizen.

CORE SKILLS

Supply chain: purchasing and procurement · inventory management (reorder points, safety stock) · demand forecasting and S&OP · supplier risk and diversification · tariff and trade exposure · logistics visibility · warehouse flow · Lean/OEE, KPIs and capacity planning
Systems and data: SAP (delivery scheduling) · SQL · Python · Power BI · Tableau · Excel (macros) · data warehousing and dimensional modeling

EXPERIENCE

Founder & Principal Consultant, Statadventure, LLC — Burlington, MA | Jan 2018 – Present (part-time)
Supply chain and operations consulting with an AI practice for U.S. manufacturers.

- Support manufacturers on supply chain (tariff exposure, supplier diversification and reshoring, inventory and S&OP, logistics visibility) and operations (plant and warehouse flow, Lean/OEE, KPIs, capacity planning).
- Designed and built supply chain software tools for demand forecasting and S&OP planning, inventory, and supplier-risk visibility in Python and SQL.
- Manage client engagements end to end, from requirements and scoping to delivery.
- AI practice: demand forecasting, dashboards and BI, workflow automation and data readiness.

Independent Consultant — Burlington, MA | Jun 2025 – Present

- Provide supply chain services to Boston and New England businesses, drawing on Statadventure's consulting work.
- Build applications and integrate AI tools into day-to-day business workflows; provide marketing services.

Data and Business Analyst, UnitedHealth Group; Dairy Farmers of America | Jan 2016 – Jan 2018

- Built data quality evaluation and monitoring tools to improve data reliability.
- Partnered with executives to refine metrics, budgets and forecasts used in planning decisions.
- Delivered recurring metrics and analytics reports, and defined client- and program-specific KPIs with internal stakeholders.

Supply Chain Manager, Pratt & Whitney (military aerospace engines) | Jan 2014 – Jan 2015

- Managed the supply chain for F100 engine parts (F-15 and F-16), covering purchasing, delivery and warehousing of critical components.
- Tracked and scheduled deliveries in SAP to keep production of critical parts on schedule.
- Set reorder points and safety stock to manage inventory levels.

Business Intelligence Consultant, Maine Pointe | Jan 2013 – Jan 2014

- Delivered BI architecture work, including data warehousing, dimensional modeling and reporting tools.
- Developed analytics, visualizations and recommendations; gathered requirements and wrote user stories.

Data Analyst Intern, Excellus BlueCross BlueShield — Rochester, NY | Jun 2011 – Aug 2012

- Process mapping and ETL; managed relational datasets; worked with IS on data collection and reporting applications.

Fund Accounting Associate, State Street Bank and Trust; JPMorgan Chase — Boston, MA | 2006 – 2009

- Built Excel macros to automate daily income verification for MFS mutual funds.
